

A NEW GENERATION OF COATING SYSTEMS

I contacted multiple contractors to coat my garage floor. You were by far the most professional of the group, after having the work done it is my pleasure to say that your professionalism did not stop there. The work was done excellently, I have no hesitation in recommending you to anyone!

Raymond M.

Mica is a natural mineral flake that provides a metallic luster to the floor coating. This unique quality is derived from a group of sheet silicate minerals such as granite and other stone. Our Mica Media systems insulate the surface applied to, while creating an extremely durable layer of protection.

BENEFITS

- Protects any surface
- Ultra low VOCs
- Reflective properties
- Eco friendly system
- Easy to clean

DURABILITY

- Extreme solvent resistance
- Extreme abrasion resistance
- UV stable
- Molecular bond
- Impermeable
